¹ Revised pursuant to 2/16/10 letter from the Office of Economic Development. OED isn't set up to provide loans and grants so the action was revised so that OED could direct small businesses to organizations that provide loans.

² Proposed by Current Planning Division

³ See #1 above.

⁴ Proposed amendment by the Current Planning Division to address the fact that MMMC does not employ physicians.

⁵ Do not want to limit the increases in services to cardiac care so the “but not limited to” language was added.

⁶ Proposed amendment by the Current Planning Division to add “facilities” to the policy.

⁷ Proposed amendment by the Current Planning Division to clarify the types of activities that may fall under “alternative medicine”. This would not include retail activities and pharmacies.

⁸ Proposed amendment by the Office of Economic Development to clarify that OED does not have the capacity to develop the alternative health care practices industry by themselves.

⁹ Proposed amendment by the Current Planning Division to eliminate “adults” from an objective that is focused on k-12 education for the island’s youth.

¹⁰ Proposed amendment by the Current Planning Division because it would be difficult to “ensure” that we meet this objective, but we could realistically “strive” to meet it.
