ATTENDANCE

COMMISSION MEMBERS PRESENT:

- Kyle Ginoza, Chair
- Lisa Vares, Vice Chair
- Gregg Lundberg, Member
- Dwight Burns, Member
- Donna Sterling, Member
- Punahuele Alcon, Member
- Max Kincaid, Jr., Member
- Dylan Andrion, Member

STAFF:

- Bradford Ventura, Deputy Fire Chief
- Michael Werner, Battalion Chief
- Richard Kawasaki, Assistant Fire Chief
- Moana Lutey, Corporation Counsel
- Gary Murai, Deputy Corporation Counsel
- Richelle Wakamatsu, Commission Secretary
- Herman Andaya, Maui Emergency Management Agency

(July 15, 2021, 10:02 a.m.)

* * *

CHAIR GINOZA: Good morning, everyone. Today is July 15th, 2021, and this is the Maui Fire and Public Safety Commission meeting. My name is Kyle Ginoza, chair of the commission. Welcome, everybody. And I'd like to start -- call the meeting to order, it's just after 10:00, 10:02, and we'll start off with roll call.

Vice Chair Lisa Vares.

VICE CHAIR VARES: Here, Chair.

CHAIR GINOZA: Okay. Welcome, Lisa.

Gregg Lundberg.

COMMISSIONER LUNDBERG: Present.

CHAIR GINOZA: I see Gregg.

Dwight Burns.

COMMISSIONER BURNS: Here.

CHAIR GINOZA: Thank you, Dwight.

Donna Sterling.

COMMISSIONER STERLING: Here.

CHAIR GINOZA: Thank you, Donna.

Punahuele Alcon.

COMMISSIONER ALCON: Here.

CHAIR GINOZA: Thank you, Punahuele.

Max Kincaid, Jr. I don't see Max.

And Dylan Andrion.

1 COMMISSIONER ANDRION: Here, Chair.

2 CHAIR GINOZA: Thank you, Dylan.

3 We have with us from the fire department -- Chief
4 Ventura, would you like to mention who's on the call?

5 ACTING CHIEF VENTURA: Good morning, everybody. So
6 I am on the call today from New Mexico, and in Maui, we have
7 Chief Kawasaki and Chief Werner in our conference room.

8 CHAIR GINOZA: Great. Thank you.

9 And from corp. counsel we have Moana Lutey and Gary
10 Murray.

11 MR. MURAI: Good morning, Chair.

12 CHAIR GINOZA: We also have Herman Andaya from MEMA.
13 Welcome, Herman.

14 Anybody else I neglected to recognize?

15 (No response.)

16 CHAIR GINOZA: Okay. Seeing none, I'd like to go
17 over the approval of the minutes from the last two meetings,
18 so I hope commissioners have been able to review the meeting
19 minutes from the June 8th as well as the June 17th meetings.
20 Could I have a motion to accept both the June 8th and the
21 June 17th meeting minutes?

22 COMMISSIONER ANDRION: So moved, Chair. This is
23 Dylan.

24 CHAIR GINOZA: Okay. Thank you, Dylan. Could I
25 have a --

1 COMMISSIONER BURN: Second.

2 CHAIR GINOZA: Second, Dwight. Is there any
3 discussion on the approval of the minutes?

4 (No response.)

5 CHAIR GINOZA: All right. Seeing none, could I have
6 a -- raise the hand of who approved the minutes, please, of
7 commissioners?

8 (Response.)

9 CHAIR GINOZA: I think that's everybody, so
10 approved, the minutes are approved.

11 Richelle, are there any individuals there to -- who
12 have signed up to testify?

13 MS. WAKAMATSU: No one has signed up through our
14 office.

15 CHAIR GINOZA: Okay. Thank you, Richelle.

16 Is there anybody on the call that wishes to testify?
17 Please speak up.

18 (No response.)

19 CHAIR GINOZA: All right. Seeing none, public
20 testimony is closed.

21 I'd like to move on to MEMA's report. Herman, you
22 have the floor.

23 MEMA OFFICER ANDAYA: (Inaudible) we've been in
24 preparation (inaudible) there's a hurricane that's
25 developed --

1 CHAIR GINOZA: You're kind of breaking up.

2 MEMA OFFICER ANDAYA: -- in the Pacific.

3 Is this okay now, Mr. Chair? Can you hear me now?

4 CHAIR GINOZA: It's a little better.

5 MEMA OFFICER ANDAYA: Okay. So we're continuing to
6 work on our hurricane preparedness. In fact, there is a
7 hurricane. There is a hurricane that's just developed off the
8 Mexican coast, it's Hurricane Felicia, and so we're continuing
9 to monitor that. Hopefully -- it's heading (inaudible), but,
10 hopefully, the cool moisture will lead to its demise. So
11 we'll continue to monitor that.

12 We'll also continue -- we're also doing preparations
13 for other things. As an example, we're -- we're working on
14 our points of distribution plan, so in the event that we need
15 to bring a large supply of food and supplies to the public,
16 we -- we are developing plans for that. And we're working
17 with HiEMA to do that. As well as we are working with the
18 DOE, department of education, as well as the Maui Police
19 Department with the active shooter plan, so we're working on
20 that, and we hope to have an exercise sometime next year.

21 You have to excuse the reception and the -- the
22 wind. I'm here at Camp Maluhia. I'm teaching a course in
23 emergency preparedness for our scouts here. And emergency
24 preparedness is one of their patches for eagle scout, so I'm
25 teaching that course right now.

1 That's all I have, Mr. Chair.

2 CHAIR GINOZA: Thank you, Herman.

3 Does any commissioner have any questions for Herman?

4 (No response.)

5 CHAIR GINOZA: All right. Seeing none, thank you,
6 Herman. Go back to your course.

7 MEMA OFFICER ANDAYA: Thank you, Chair.

8 CHAIR GINOZA: Okay. Let's move on to the fire
9 department. Chief Ventura, do you -- I'll put it to you, and
10 I don't know if you're gonna hand it off to Chief Werner or
11 Kawasaki since you're not in town.

12 ACTING CHIEF VENTURA: All right. Great. Well, I
13 do have my notes with me, so I'll share with you the fire
14 chief's report as well as the deputy chief's report. And just
15 like I did last month, I'll break in between so that you can
16 ask questions if any arise.

17 So I just want to kind of recognize what Herman and
18 MEMA have been doing. I've heard a ton of radio ads for them
19 supporting, you know, preparedness this -- this year with the
20 hurricane season. I've heard numerous radio commercials, so I
21 just kind of wanted to give him a, you know, good job,
22 congratulations. I've heard a lot of them, so that's good,
23 and I hope it's reaching everybody in the public.

24 And then as far as our month -- our daily meetings
25 with the mayor and the directors of the county, they've

1 changed to three days a week because they're kind of pulling
2 back on COVID restrictions a little bit. So our department's
3 also gonna be pulling back on some of our closures and
4 restrictions that we've had in place for the last year and
5 starting to open things back up to work with the community a
6 little bit better.

7 The -- we had a meeting with the managing director
8 in regards to the building permit process. The building
9 permit process goes through many departments, and it can
10 sometimes be really frustrating to the public, so we had a
11 meeting to try to make sure whatever we can do on our end, it
12 would expedite the process so that we aren't the ones holding
13 up, you know, building permits that go through the process.
14 All departments have a perspective that they want to look at a
15 permit for. For us, it's obviously, fire code and some other
16 things, but we've reduced the number of types of plans that we
17 want to look at so that it doesn't get held up by us and it
18 moves faster through the process, so we made that adjustment.

19 At our meeting with the mayor, our monthly meeting,
20 we discussed basically this upcoming wildfire season and the
21 new fiscal year budget that just kicked off.

22 And then Pukoo Fire Station, as I've reported a
23 couple of times, we've been pretty active in getting that site
24 moved, and there's a prospective site right now that we're
25 having the county archaeologist take a look at the site just

1 to make sure there's no red flags or no -- you know, no turn
2 back moments there because we want to make sure that we don't
3 purchase something or go through with an acquisition without
4 getting the right people to take a look at the land.

5 We did a presentation last week for county council
6 in regards to our improved helicopter program, and it was
7 taken very well. They had a bunch of questions for us, and we
8 were able to answer them all, and we kind of for now informed
9 them of the change and the future of our program, so that was
10 a good meeting.

11 And then we did also on June 23rd have a meeting, an
12 evening meeting with the Department of Hawaiian Home Lands
13 beneficiaries. That was a great meeting to hear those folks'
14 perspective on the Pukoo Fire Station location. We are asking
15 for an easement of Hawaiian Home Lands for access to the Pukoo
16 Fire Station, and so I really, really appreciated hearing all
17 of their comments and trying to try to work together. If
18 there's anything that they can suggest to make -- make it
19 better for the Hawaiian Home Lands properties that are
20 adjacent to our property, then, you know, it's something that
21 we can definitely work with them. They had some great
22 suggestions in regards to fencing and space and which way to
23 access the property and not. So a lot of very passionate
24 people, I love meeting and talking with that group and
25 listening to what they have to say.

1 Before I move on to the deputy report, I just want
2 to give a moment for questions if there's any.

3 CHAIR GINOZA: Any questions from commissioners?

4 VICE CHAIR VARES: (Gesturing.)

5 CHAIR GINOZA: Yes, Lisa.

6 VICE CHAIR VARES: Hi, good morning. I had a
7 question about the -- the increase in funding for the aircraft
8 budget. I remember when Don Shearer came and gave a
9 presentation, and one of the things that he was considering
10 for future contract years was the addition of twin-engine
11 helicopters. Did that ever end up coming to fruition?

12 ACTING CHIEF VENTURA: Yeah, good -- good question.
13 So what we have is we have a five-year contract that just
14 started July 1st with Windward Aviation. That spec that we
15 created went out to public bid, and he won the bid. What it
16 is is year one, which is the fiscal year that started two
17 weeks ago. It'll be the same aircraft as the one we have now,
18 a Hughes 500 with a single-engine aircraft. Starting next
19 July 1, we're gonna be getting the twin-engine aircraft. It's
20 a BK-117. It has a ton of more capabilities that we can go
21 over, including hoisting, carrying more payload, moving more
22 manpower, and, additionally, it'll have -- it'll bring 300
23 gallons to the fire per drop rather than 90 to 100, which is
24 what we're doing right now.

25 And, of course, that -- none of that comes without

1 cost, that's why I wanted to meet with the council well in
2 advance to inform them of the increase that'll be coming to
3 our budget with the increase of the aircraft starting next
4 year. And the reason we had to kind of start now is the
5 aircraft needs to be purchased, the pilots need to be trained,
6 and our crew, our firefighters need to be trained before next
7 July, so we wanted to get the ball rolling soon.

8 VICE CHAIR VARES: Cool. Thank you so much. All
9 right, thanks.

10 CHAIR GINOZA: Any other questions from
11 commissioners?

12 (No response.)

13 CHAIR GINOZA: I have a question, Chief. On the
14 meeting with the beneficiaries, how -- what was the -- were
15 they generally supportive or a lot of opposition as well?

16 ACTING CHIEF VENTURA: We did have both, as
17 expected. I would say of the people that provided oral
18 testimony that evening, it was probably more like 80 percent
19 in support, 20 percent against. And understandably, and it's
20 fair. And I'm sure more people are gonna also provide written
21 testimony. The period for written testimony is still open for
22 this particular case, and then once that closes, then Hawaiian
23 Home Lands will kind of make a conclusion on that. They have
24 a meeting scheduled for next month, August, so hopefully, we
25 can get in on that as well.

1 CHAIR GINOZA: Okay. Thank you.

2 Any other questions from commissioners?

3 (No response.)

4 CHAIR GINOZA: All right. Seeing none, please
5 continue to the deputy chief's report.

6 ACTING CHIEF VENTURA: Okay. So the -- what I
7 wanted to include in this month's report was the quarterly
8 newsletter from our training bureau. Did everybody get a
9 chance to receive that? I tried to send it out.

10 COMMISSIONERS: (Gesturing.)

11 ACTING CHIEF VENTURA: Okay, cool. So I wanted to
12 share this with you folks 'cause what it really covers is the
13 last three months of training, what classes we have given,
14 and -- and we give you the guys the -- the training which
15 is -- comes on a spreadsheet which doesn't really explain what
16 we're doing out there. So I wanted to include the newsletter
17 so you can take a look through that, see what types of
18 training are going on. And then not only is it organized
19 training under the training bureau, but you'll see training,
20 specific cruiser training, and that's captain-lead training,
21 that's training that captains said, hey, let's work on this
22 discipline or that discipline. They go find a building, they
23 talk to a landlord or a manager, and then they use a facility
24 in their district to do training. So I thought, you know, it
25 gives you an idea of what's happening on a daily basis out

1 there in the department. So take a look at that if you have
2 any questions.

3 Moving on to my written report here. The
4 firefighter trainees have begun, and ocean safety had their
5 agility three days ago for us to start that next recruit class
6 for our ocean safety officers. The peer and wellness
7 committee, as you'll both see from the quarterly training
8 newsletter and on here, has started to go around and do their
9 training. And then we've also had the department psychologist
10 video out for people to reach out and talk to her. I haven't
11 had a chance yet to inquire with her how many people have
12 called her directly, but I do plan to do that because I want
13 to get a feel for what the demand is gonna be for her. The
14 wellness app, which is also part of our department wellness
15 program, all of the members are starting to -- some of the
16 members are starting to download the wellness app, so
17 that's -- that's good. It'll give them an opportunity to get
18 help if they need any help.

19 Our union interactions, the negotiations, we have
20 all of our bargaining units are open for negotiations, and
21 June 30th, they were supposed to close. HGEA, we closed three
22 of the negotiations with them, their bargaining units, and
23 then HFFA is still in arbitration. There's no date set for
24 the closure of that arbitration, but we're operating under the
25 guise of the current and expired contract.

1 Transmittals from the public. We received, you
2 know, just a variety of, you know, just thank you for
3 everything that's been going on. You know, thank you for
4 first responders during this time, they appreciate everybody
5 being out there, and so that's been nice.

6 And then we had a -- you know, we have a -- we have
7 a lot of very talented people in our department. It's awesome
8 to see stuff like this happen. Ikaika Blackburn, who's a
9 firefighter 3 in Wailuku, he plays music, he has a -- and he
10 played for four different halaus during the Merrie Monarch,
11 and so that was pretty cool for him to be, you know, out,
12 involved. That's an amazing event. Unfortunately, last year
13 it was shut down due to COVID, and this year they did a
14 virtual event, but happy to see that it started up again and
15 happy to see that some of our guys were involved in that.

16 That concludes that report for you.

17 CHAIR GINOZA: Thank you. Any questions from
18 commissioners on that report?

19 VICE CHAIR VARES: (Gesturing.)

20 CHAIR GINOZA: Yes, Lisa.

21 VICE CHAIR VARES: (Inaudible.)

22 CHAIR GINOZA: Yes, Lisa, you're --

23 VICE CHAIR VARES: All right. Sorry about that.

24 I've got a quick question. If I could just ask a
25 real quick clarification and not too much go into it. But for

1 the HGEA union stuff, could you real quickly explain who is
2 Unit 3 and who is 13 and then 14 and 15? Like is ocean safety
3 15 and clerical is 3? What is all of that?

4 ACTING CHIEF VENTURA: Yeah. Good question. So
5 Unit 3 and 13 are our clerical staff, and they're in two
6 separate bargaining units, so good guess. Unit 14 is the
7 lifeguards. The lifeguards are currently Unit 14 with the
8 sheriff's department, which makes it a little awkward, so
9 they're breaking away and gonna become Unit 15 by themselves.
10 So, yeah, 14-15 is kind of the hybrid of ocean safety right
11 now.

12 VICE CHAIR VARES: Great. Okay. Thank you. That
13 was easy. Thanks.

14 CHAIR GINOZA: Okay. Thank you.
15 Any other questions from commissioners?

16 (No response.)

17 CHAIR GINOZA: All right. Seeing none, Chief
18 Kawasaki.

19 ASSISTANT CHIEF KAWASAKI: Good morning, everybody.
20 So since our slave-driver boss is gone, Mike and I don't have
21 anything.

22 (Laughter.)

23 ASSISTANT CHIEF KAWASAKI: Just joking. Yeah, we've
24 been still working. We've been coming to work every day.
25 Brad's not here, but --

1 And as far as our major incidents, we were pretty
2 surprised that we've been very hot and dry and no major fires,
3 you know, a lot of -- a bunch of small brush fires and stuff.
4 And 4th of July, we got through that with -- we did have a
5 bunch of callback crews and nothing very significant. We
6 had -- they were busy, but nothing -- nothing really big.

7 Moving on to our apparatus equipment, Engine 1 has
8 arrived. It got here last week. We did training with the
9 crew, all the three crews on Monday, Tuesday, and Wednesday.
10 We did have a blessing for the -- that truck yesterday. And
11 we're -- have some radio work that needs to be programmed,
12 that'll happen tomorrow, and after that happens, we can put it
13 in service. It should be in service, that Engine 1 for the
14 Wailuku Station, that should be tomorrow. We did order a mini
15 truck for them that is scheduled to arrive here on Maui on the
16 21st of July, and then the Lahaina truck should be here on
17 August 4th.

18 And like Chief Brad said, we did -- we have our
19 Recruit Class 37 right now. They started July 1st. They're
20 upstairs doing their EMR/CPR certifications.

21 Ocean safety, we did an agility test on Monday. We
22 interviewed all day on Tuesday. We had 11 -- sorry, 11
23 applicants for seven positions. I'm kind of glad to say that
24 of the 11 applicants, they're all good applicants, so we're
25 not gonna be too -- you know, we have -- we have a good

1 selection for, you know, that seven positions that we have to
2 fill. I'm happy with that.

3 And also, we do have that -- in the beginning of
4 COVID, the Makena lifeguards were taken away, the funding for
5 that. So we are in the process of trying to get them
6 reinstated because the state has funded them again, and we're
7 just working on trying to get them back in place. We will be
8 probably having to hire another class for ocean safety
9 eventually, you know, shortly -- probably within the next few
10 months.

11 Other than that, that's all I have.

12 CHAIR GINOZA: Thank you, Chief Kawasaki.

13 Any questions from commissioners?

14 VICE CHAIR VARES: (Gesturing.)

15 CHAIR GINOZA: Yes, Lisa.

16 VICE CHAIR VARES: Hi. I'm sorry I have so many
17 questions this week. You guys have a lot of interesting stuff
18 going on. Hey, regarding the apparatuses, Engine 1's got a
19 new truck, and Engine 3 has got one coming. Are they -- are
20 crews cross-trained on those apparatuses so that if there's
21 a -- a long incident, another crew can come in and take over
22 and effectively use that apparatus?

23 ASSISTANT CHIEF KAWASAKI: Yeah. So most of our
24 trucks are similar. You know, the functions of the truck, the
25 pump and stuff is pretty standard, so anybody can, you know,

1 jump on the truck and they should -- you know, they'll do a
2 quick, you know, check on it, but they're able to all operate
3 the different -- the different trucks. When it comes to the
4 tankers and the ladders, though, they're -- those are
5 different from our pumper trucks, so there's -- not
6 everybody's familiar. You know, if they are on the ladder
7 truck, then maybe only certain people can drive that one.

8 And as far as the equipment that we carry, we do
9 have a standardized everything on each of the trucks, so
10 everybody should be familiar. Lots of times -- we try and
11 keep the trucks, you know, the same equipment and in the same
12 compartments, but sometimes there's a little variation, so
13 when the guys, you know, jump on a different truck, they need
14 to familiarize themselves with the truck.

15 VICE CHAIR VARES: Gotcha. The pumpers and ladders,
16 though, are kind of specifically different and might not be as
17 familiar to a second crew coming in?

18 ASSISTANT CHIEF KAWASAKI: Yeah, yeah. So --

19 VICE CHAIR VARES: Does that happen often?

20 ASSISTANT CHIEF KAWASAKI: What's that?

21 VICE CHAIR VARES: Does that happen often? Is that
22 something that can happen frequently?

23 ASSISTANT CHIEF KAWASAKI: Yeah, so -- so, no, we'll
24 try and make sure that, you know, if we have a -- if you're
25 talking about our callback crews when the callback crews come

1 in, we won't put somebody that has no experience on a ladder,
2 you know. Almost everybody has experience on the pumpers.

3 VICE CHAIR VARES: Gotcha.

4 ASSISTANT CHIEF KAWASAKI: It's just the ladders
5 are, you know, kind of specialized.

6 VICE CHAIR VARES: Gotcha. All right, thanks.

7 COMMISSIONER LUNDBERG: Mr. Chair.

8 CHAIR GINOZA: Thank you.

9 Yes, Gregg, go ahead.

10 COMMISSIONER LUNDBERG: Chief, what is gonna happen
11 to the vehicles that are being replaced? Are they gonna be
12 sold off, or are you gonna rehab them? What's the plan for
13 the replaced vehicles with these new ones?

14 ASSISTANT CHIEF KAWASAKI: Yeah, so our normal
15 replacement schedule for our trucks is they go from a
16 frontline truck and then at some point, you know, depends on
17 their condition, we pick the -- the ones that need to replace
18 first, so once they -- once we replace them, they become
19 our -- our newest relief apparatus. So they've still got some
20 life left. We normally try -- from there, it will be our
21 relief truck. We'll keep them as long as we can, and then
22 after that, it reaches a point where it's, you know, not
23 effective, cost-effective to keep around, so then we'll
24 dispose of it after. So like this Engine 1 truck, it'll be
25 our -- one of our better relief trucks, and it'll probably --

1 you know, it'll be around for seven -- I don't know, six,
2 seven more years, probably. And then once it reaches a point
3 where, you know, there -- like we do have a truck, our old
4 relief Engine 7 from Hana truck is at our training center.
5 It's no longer able to pump -- able to pump, but we can use it
6 to drive, so we use it for driver training. It's just that
7 the pump is not reliable enough to put online. So that's how
8 all of our vehicles go. They go from a frontline to a relief
9 apparatus and then disposal after that.

10 COMMISSIONER LUNDBERG: Thank you.

11 CHAIR GINOZA: Any other questions from
12 commissioners?

13 (No response.)

14 CHAIR GINOZA: All right. Seeing none, Chief
15 Werner.

16 CHIEF WERNER: Good morning, Commissioners. For the
17 bureau update, starting with the fire prevention bureau, along
18 the guidance from the mayor and what deputy chief was talking
19 about, they put a very strong effort into plans review last
20 month. And we've had a couple of guys who are qualified to do
21 those plans reviews, even coming in on the weekends to try to
22 get us caught up with those. Again, they're putting a very
23 strong effort into the MAPPS program that is scheduled to go
24 live mid-October, and there's still a lot of work to be done,
25 so they've put a very strong effort into that.

1 And then one of the nice things was with COVID
2 starting to lighten up just a little bit; we were able to do
3 some pub ed stuff in person. And one of the things they did
4 was they attended a CSI camp that is put on by the Maui Police
5 Department, and it's a really cool camp. They all do all
6 types of investigations, fingerprinting, they even do an
7 autopsy, and one part of that is investigating arson fires.
8 So the guys put together a mock room, it was about 3 by 3, it
9 had carpet, it had drywall, it had a ceiling, and they lit a
10 fire inside of it. This was outside of the camp, and the kids
11 were out there watching this thing catch fire, and then they
12 put it. And then they also hid some clues around in the yard,
13 you know, possible things that caused that fire. And I had a
14 chance to attend it and see, you know, how well this
15 prevention bureau did putting that together and the reaction
16 of all the kids, and it was a really cool thing.

17 Also, prevention -- so when there's an activation
18 from MEMA for the emergency operations center, somebody from
19 our department has to attend to be a part of the public safety
20 branch, and the captain of the fire prevention bureau is one
21 of those people. So Herman put together a really good program
22 this year of an EOC refresher just to align us all to make
23 sure we're all on the same page as to what's expected. So the
24 captain of that bureau attended that as well as all of the
25 other people who were expected to respond to the EOC whenever

1 they do their -- whenever they stand up that for emergencies.

2 Moving on to the health and safety bureau, they
3 completed a draft of a respiratory protection program manual
4 that they are submitting to admin. for us to review. And then
5 they put another strong effort into HIOSH requirements; that's
6 one of the things that's been ongoing for a long time with
7 them. As you can imagine, you know, the fines from any of
8 those things that are not taken care of can be really high,
9 and HIOSH did a nice visit last month throughout the county.
10 I don't think they did any of our facilities, but, again,
11 they're still putting a strong effort into making sure that
12 we're up to par with all of that.

13 Our warehouse technician has been very proactive
14 getting ready for wildfire season this year. One of the
15 things that happens out there is when you have the large fires
16 that are happening all across the United States, a lot of the
17 supplies dries up. PPE, the wild gear that the guys wear,
18 fire hose, all of that type of stuff we learned last year
19 became very hard to acquire. I had heard that LA gave one of
20 the companies a \$5 million check and just said any time that
21 you develop hose, we want it all. So Dexter was very
22 proactive this year, and he ordered a lot of supplies, so I
23 think it -- if we get a heavy fire season this summer, we're
24 gonna be prepared for that.

25 Our medical director, again, he's very proactive.

1 He has just ordered -- I'm trying to say it correctly, it's
2 naloxone. And what that is, is it's a nasal treatment that
3 reverses the negative or the dangerous effects of opiates.
4 And as you guys know, a large volume of our calls are
5 medicals, and, unfortunately, we do come across a lot of
6 patients who are ODing from drug use. So he's getting with
7 our medical EMS cadre leader and going over a training program
8 and then developing an SOG, and as soon as possible, we're
9 gonna get that out to the guys online, learning how to use
10 that and then putting it online.

11 What a lot of people don't understand is that an N95
12 mask is actually a respirator, so our SCBA tech just received
13 a new testing/fitting machine, so now all of our guys -- we've
14 had one in the past, but this one is the latest and greatest,
15 and so we can get all of our guys fitted for N95 masks as well
16 as the SCBA masks that we wear when we go into the fires.
17 That's it for that bureau.

18 Our budget planning and appropriations committee
19 update, so FY '21 closed, all procurements were completed.
20 The last of it were the extractors for Paia, Napili, and Kula,
21 and those are being installed as we speak. When we submit our
22 budget, we also have to submit goals which we call performance
23 measures, and we report on those every quarter. We have over
24 50 of them. And so our -- the fourth quarter ended, and we're
25 submitting those to the budget office tomorrow, so that's all

1 taken care of. And then, as chief mentioned, the FY '22
2 budget opened on July 1st, and we're already actively working
3 on all of the procurement and all of the goals for the FY '22
4 budget.

5 And that's everything I have. If you have any
6 questions, I'm happy to answer them.

7 CHAIR GINOZA: Thank you, Chief Werner.

8 Any questions from commissioners?

9 (No response.)

10 CHAIR GINOZA: Okay. I have a question. Could you
11 give a little bit of background on the MAPPS program and what
12 the purposes are?

13 CHIEF WERNER: I'll give you the best that I can.
14 So MAPPS is the county permitting -- it's an automated
15 permitting process, and it involves all of the departments in
16 the County of Maui that have to deal with processing and
17 approving permits. So it used to be Kiva, and Kiva is now a
18 dinosaur, so they purchased MAPPS. But MAPPS was purchased as
19 an off-the-shelf type of a thing, and then we'll build it with
20 you. So we have -- I can't remember the number of permits, I
21 want to say it's over 25, so each one of those permits has to
22 be created to fit into this MAPPS program, and then it has to
23 be tested as if I'm a MAPPS user and trying to use this permit
24 and all of the interaction that goes with that. So just the
25 development of all of the actual permits themselves and then

1 learning how to use this program, it's been a huge challenge.
2 And not just for our department, for all of the departments in
3 the county. So we got a new lieutenant last year, and,
4 luckily, he is just super computer savvy, and Captain Otsubo
5 has directed him to just take this on. And so he has been
6 getting us caught up, and, actually, we're doing really well
7 towards meeting the goal of being ready to go for October.

8 CHAIR GINOZA: Okay. Great. Thank you.

9 Any questions from commissioners?

10 (No response.)

11 CHAIR GINOZA: All right. Seeing none, let's move
12 on to our new business, which is -- we have one item, which is
13 an update from the temporary investigative group. And I
14 believe Vice Chair Vares will provide an update.

15 VICE CHAIR VARES: Yes. Hi, everybody. So the TIG
16 or the temporary investigative group hasn't done too much
17 between the last meeting and this one as a result of needing
18 to reopen the candidacy just to make sure that we cross all
19 the t's and dot all of the i's, and did not research too far
20 into the candidates that we had to -- to be fair to any other
21 new candidates that were coming through. The application
22 deadline is July 22nd, so after the 22nd we will start the
23 research process again. Once we get that out of the way, and
24 I would hope that that would only take a week or two, we will
25 be scheduling interviews with the candidates, and at the

1 interview, we're going to be asking a specific list of
2 questions. That list of questions hasn't been developed yet.
3 We're still working on that.

4 I'm actually going to ask all of our commissioners
5 to please pull together some questions that you would like to
6 find out for each candidate, and we'll -- we'll go through
7 those lists together and find out what works and what doesn't.
8 But, please, if everybody could come together provide us with
9 three or four questions that you think would be appropriate
10 for the chief's interview, that would be really appreciated.

11 When we do have the interviews, we're going to be
12 using scoring sheets or rating sheets so that it kind of
13 coordinates and documents how each answer is received. And
14 then, once the interviews are done, I would think that
15 deliberations wouldn't take very long at all, and we'll then
16 make our choice based on that. I would realistically expect
17 there still to be some time between interview and any kind of
18 announcement because we do need to follow Sunshine laws
19 regarding when we can vote and when we can deliberate.

20 But we'll definitely keep you all posted as that
21 becomes clearer. Did anybody have any questions on how we're
22 doing with the -- this process so far? Anybody?

23 COMMISSIONER LUNDBERG: Lisa.

24 VICE CHAIR VARES: Gregg. Yeah.

25 COMMISSIONER LUNDBERG: Thank you for all your work

1 on this. It's really appreciated. Honolulu is going through,
2 I believe, the same process at the same time.

3 VICE CHAIR VARES: Yeah.

4 COMMISSIONER LUNDBERG: I believe they're looking to
5 fill their chief. Have there been any learnings, or have you
6 talked to anybody over there to get ideas on what would make
7 us better here?

8 VICE CHAIR VARES: They're doing something that's a
9 little -- a little more -- I wouldn't say -- anyway, the
10 process that they're using, I believe they're going to keep
11 quite a few of their questioning and interview process public
12 as opposed to any private interviewing and whatnot. I've only
13 heard that; I want to verify that. If that is the case, you
14 better believe we're going to be watching that and see both
15 interview styles and interview questions and what works and
16 what doesn't and, oh, stay away from that question and, oh, I
17 hadn't thought of that. So, yeah, we are paying very close
18 attention to what they're doing in Honolulu.

19 COMMISSIONER LUNDBERG: Okay. Thank you.

20 CHAIR GINOZA: That's excellent.

21 VICE CHAIR VARES: Anybody else?

22 CHAIR GINOZA: Actually, we should try to reach out,
23 either yourself or I could as well --

24 VICE CHAIR VARES: Sure, happy to.

25 CHAIR GINOZA: -- to see what kind of insight we

1 could gather from Oahu.

2 VICE CHAIR VARES: Okay. Yeah, we'll get that on
3 Kyle, definitely.

4 Okay. I also wanted to mention, by the way, the --
5 all of the information for the candidates, including resumes
6 and letters of support, are located at the corp. counsel's
7 office. You can easily contact Gary, Fellow Commissioners, to
8 request to visit and take your time and read all over that
9 stuff. It is not specifically just for the TIG members; it's
10 for all of us. The TIG is just here to kind of be our -- like
11 the library. We're gonna -- we're the librarians of all of
12 this. We're just holding on to it for everybody and kind of
13 categorizing it and putting it in the right order, but you all
14 are all the readers as well. So at any time, if you do have
15 time to come down to corp. counsel and read over everything.
16 I definitely encourage that, especially after July 22nd,
17 because if we get more candidates, then there will be more
18 information added to that pile. But definitely, again, I
19 encourage everyone to take the time to read over that stuff if
20 you'd like to. Of course, all of that information will be
21 presented in a meeting prior to interview time, but it'd be
22 great if you guys were able to do a little homework ahead of
23 time.

24 MR. MURAI: Call first to let me know you're coming,
25 though.

1 VICE CHAIR VARES: Oh, yeah. Sorry, Gary. We fully
2 just stormed Gary's office yesterday. I did not give him a
3 heads-up.

4 MR. MURAI: You're welcome, Commissioners, you're
5 welcome to come, just let me know so I can make sure to have a
6 room I can put you in with the file.

7 VICE CHAIR VARES: The closet, the closet was great
8 yesterday. We appreciate the closet; it was perfect. It was
9 togetherness.

10 MR. MURAI: Oh, no, that's -- that's a last resort.

11 VICE CHAIR VARES: I deserved that. Thank you,
12 Gary.

13 CHAIR GINOZA: Okay. Any other questions from
14 commissioners?

15 (No response.)

16 CHAIR GINOZA: So I'd like to kind of clarify to
17 just make sure I understand the process and, you know, for the
18 members of the public. So kind of my understanding, and you
19 guys can correct me if I'm wrong, of the process is -- so
20 July 22nd is the deadline for applicants for fire chief. The
21 TIG will review applications and come up with the scoring
22 sheets and the interview questions or whatever, and basically
23 provide a recommendation to this body in a regular public
24 meeting. So sometime after July 22nd, we will schedule a
25 regular meeting to hear the recommendations of the TIG, and

1 then another public meeting after that to accept any
2 recommendations from the TIG, and then after that, have a
3 meeting or meetings in executive session to have the
4 interviews with the candidates, and then a public meeting
5 after that to kind of discuss, I guess, or is it -- yeah, I
6 guess maybe, Gary, could you provide some insight on that?

7 MR. MURAI: Thank you, Mr. Chair. You know,
8 Mr. Chair, yes, actually, what you described is kind of what
9 the -- you know, I've been sitting in with the TIG in their
10 meetings, and it all depends -- a lot of what happens depends
11 on how many applicants we get. You know, originally, if you
12 may recall, when the TIG was being formed, part of the TIG's
13 responsibility was to take -- you know, let's say for the sake
14 of discussion, we had 12 applicants. The TIG was going to
15 review the applications and maybe narrow it down to, say, the
16 top four or five for the full commission to vet and to
17 interview. Now, it's been already, you know, disclosed at a
18 prior meeting that up until the time -- initially, there were
19 only two applications that were received, but concurrently, we
20 also discovered some errors in the posting, so we had to
21 repost. And now the deadline for applications is not closed
22 yet, so I don't want to speculate too much on what the TIG may
23 do, but it appears that, you know, there -- the TIG may not
24 have 10, 12, or 15 applications to review. And if -- if the
25 numbers are manageable, the TIG may decide to just allow the

1 entire commission -- or the TIG may review for qualifications,
2 in other words, there may be an applicant who is just not
3 qualified, you know, they don't meet the MQs, and those may be
4 eliminated early in the process. But if -- if there aren't
5 like 20 people they need to narrow down, then the TIG may
6 decide to just let the entire commission review all of the
7 candidates as long as they are -- you know, they meet the MQs.

8 Anyway, Lisa, I hope -- Lisa, Dwight, and Donna, I
9 hope I described it accurately. I know, you know, you folks
10 talked about that yesterday.

11 VICE CHAIR VARES: Yeah, that's actually an
12 excellent description, Gary. And I definitely wanted to
13 clarify that the TIG isn't going to be making any
14 recommendations, especially because there's only -- there's so
15 few candidates, we don't have anything to recommend. We're --
16 at this point, we've gone from almost like a -- almost like a,
17 you know, a gatekeeper of the -- who actually makes it to the
18 final round to we're not gonna have to do that at this point,
19 and we're just more at this point acting as -- as compilers of
20 and organizers of the information as it comes. And also, so
21 that we don't have eight or nine commissioners emailing the
22 personnel offices for records or for, you know, history, work
23 history, or whatnot, we'll do that. We'll -- we'll organize
24 those requests, and then once we get those requests, that
25 information, those documents will be then organized in the

1 files at corp. counsel instead of being spread out amongst all
2 eight or nine of us.

3 So there's not gonna be -- the TIG doesn't have any
4 power to recommend. If it did, I don't know that we're gonna
5 be exercising that. We're just going to be organizing the
6 information and making sure that everybody's got everything
7 that they could possibly ask so that when it's time for us to
8 meet as a full commission, we're efficient, and we have all
9 that information right there ready to go. Because we don't
10 want to have to keep Sunshine lawing and another meeting and
11 another meeting and another meeting, I'd like to get
12 everything together ahead of time.

13 Does that answer that question?

14 CHAIR GINOZA: Yes, thank you. I just wanted to
15 make sure that commissioners and the public were informed
16 about our next steps.

17 VICE CHAIR VARES: Thank you, Kyle.

18 CHAIR GINOZA: Thank you very much. That's
19 excellent.

20 So any -- any other questions about the TIG update
21 or -- or the process that we're following?

22 (No response.)

23 CHAIR GINOZA: Okay. Seeing none, I look forward to
24 the next meeting with the TIG results once we get the
25 applications in.

1 Does any commissioner have any -- anything else
2 that -- we're at the end of our agenda, so any clarification
3 or anything on agenda items that we've already discussed?

4 (No response.)

5 COMMISSIONER LUNDBERG: None.

6 CHAIR GINOZA: Yes, Gregg.

7 COMMISSIONER LUNDBERG: No, I said none, thank you.

8 CHAIR GINOZA: Oh, thanks.

9 Okay. Well, thank you --

10 COMMISSIONER ANDRION: Chair, I have a question.

11 CHAIR GINOZA: Yes, Dylan.

12 COMMISSIONER ANDRION: Are we able to hear how many
13 current applicants there are?

14 CHAIR GINOZA: I don't know if there are any, but
15 I -- it's -- until it's closed, I would say no.

16 COMMISSIONER ANDRION: Okay. Thank you, Chair.

17 CHAIR GINOZA: Thank you.

18 Any other questions?

19 (No response.)

20 CHAIR GINOZA: All right. So we'll keep everyone
21 informed of the process as we outlined earlier, but thank you,
22 everybody, for your time, and I hope you have a great day.
23 It's 10:49 a.m., and I'd like to adjourn the July 15th meeting
24 of the fire and public safety commission.
