

## GPAC RECOMMENDATION

### MAUI ISLAND VISION

*Ua mau ke ea o ka `āina i ka pono*

*Maui Island is environmentally, economically and culturally sustainable with clean, safe and livable communities and small towns that will protect and perpetuate a pono lifestyle for individuals and families now and in the future.*

### CORE VALUES

To achieve our Island's Vision, we will be guided by the following values:

- A. Be good stewards of our precious 'aina, kai, and wai by applying sound natural resource management practices and preserving resources for generations to come.
- B. Respect and protect our heritage, traditions, and multi-cultural resources.
- C. Plan and build communities and small towns that include a diversity of housing for all income levels of Maui residents.
- D. Retain and enhance the uniqueness and sense of place of Maui's traditional small towns.
- E. Preserve rural and agricultural lands.
- F. Secure necessary infrastructure concurrently with future development.
- G. Support efforts which contribute to a sustainable and diverse economy for Maui.
- H. Create a political climate that seeks and responds to citizen input.
- I. Ensure Maui's long-term sustainability by: incorporating the values inherent in the ahupua`a system; reducing dependency on non-renewable resources and encouraging the use of alternative energy sources; and reducing reliance on imported products and materials that can be grown or provided locally.
- J. Show respect and dignity for every person living on Maui in all decisions about Maui's future.
- K. Establish a land transportation system that encourages non-automobile based modes including but not limited to walking, biking and mass transit.
- L. Resolve land and ownership entitlement issues.
