- (1) The goods, services, or construction has the following unique features, characteristics, or capabilities:

It also allows for consolidation of system management to the existing Service Aware Manager (SAM) server.

(Attach Additional Sheets if Necessary)

- (3) The following other possible sources for the goods, services, or construction were investigated but do not meet our needs because:

No other sources were investigated due to the fact that the Nokia 9500 MPR microwave radio was already being used and the intent was to maintain standardization with the equipment being used in the County's Public Safety Radio System.
