

REQUEST FOR SOLE SOURCE

TO: CHIEF PROCUREMENT OFFICER, COUNTY OF MAUI FINANCE DEPARTMENT
FROM: DEM/EPS/RECYCLING

(DEPARTMENT/DIVISION/BRANCH)

RE: REQUEST FOR SOLE SOURCE APPROVAL

PURSUANT TO 103D-306, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following (Description of goods, services, or construction):

Reduce operations space of the Organics Processing Program at the Central Maui Landfill(CML)

while continuing to process sewage sludge and green waste; sludge to be partially composted and the

rest solidified with mulch and hauled to landfill. This is required to make room for new landfill cell.

Name of Vendor: MAUI EKO SYSTEMS

Cost: \$ 2,945,823.63 Term of Contract: From: NOVEMBER 1, 2019 To: JUNE 30, 2020

Prior Sole Source Reference No.(s), if any: N/A

- (1) The goods, services, or construction has the following unique features, characteristics, or capabilities:

Only company that is currently permitted and equipped to handle 25,000 annual tons of

County sewer sludge and 50,000 annual tons of commercial and residential green waste.

EKO must reduce facility footprint so CML can start construction on a new landfill cell.

- (2) How are the unique features, characteristics, or capabilities essential for the agency to accomplish its work:

EKO has been co-composting at the CML since the 1990's and has all the components

necessary to handle the transition and operations. County trucks hauling sewage

sludge require a receiving bay for unloading or risk tipping. EKO has a receiving bay

and owns equipment needed to handle sludge, lift station grit, and grease trap waste.

(Attach Additional Sheets If Necessary)

SOLE SOURCE REF. NO. 20-16

- (3) The following other possible sources for the goods, services, or construction were investigated but do not meet our needs because:

Other Island composters cannot handle any sewage sludge or this much green waste.

Could not find any other waste handler capable or available to process sewage sludge.
