

Instructions for persons who need to self-quarantine following travel into the State of Hawaii

Welcome to Maui!

If you need to self-quarantine upon arrival (because you did **not** take a pre-travel COVID-19 test **OR** your test results are still pending), you need to abide by the following self-quarantine rules as set by Governor Ige.

Proceed directly from the airport to your designated quarantine location.

- **Do not** stop to pick up groceries, take-out, or any other supplies.
- If you need supplies, you need to arrange for a delivery service.
- If you did not take a pre-travel COVID-19 test, you will remain in your designated quarantine location for a period of 14 days or the duration of your stay in the State of Hawaii, whichever is shorter.
If your pre-travel COVID-19 test results are still pending, you need to remain in your designated quarantine location until you get a **negative** test result.
 - For residents, your designated quarantine location is your place of residence.
 - For visitors, your designated quarantine location is your hotel room or rented lodging.
 - You can only leave your designated quarantine location for medical emergencies or medical care.
- **Do not** leave your designated quarantine location. You must stay in your home / rented lodging to prevent the spread of COVID-19 to other people.
 - **Do not** go to public places, such as work, school, shopping centers, childcare, or local attractions, beaches, pools, spas, meeting rooms, fitness centers, grocery stores, bars, or restaurants.
 - **Do not** let visitors into your designated quarantine location other than a physician, healthcare provider, or individual authorized to enter the designated quarantine location by the Director of HIEMA.
 - Ask someone to drop off food and other necessities at your front door or order room service.
 - If you have a private lanai (patio) or live in a private home, it is safe for you to use your yard or lanai.
 - **You must** also comply with any and all additional rules or protocols related to your quarantine as set forth by your hotel or rented lodging.

Monitor yourself for symptoms such as fever, cough, or shortness of breath.

- If you become ill with any symptoms within 14 days of arriving in Hawaii **OR** your pre-travel COVID-19 test is reported as **positive** after you arrive:
 - Continue to stay in your designated quarantine location, avoid contact with others, and contact a healthcare provider for further instructions on treatment or testing.
 - Comply with the Hawaii State Health Department COVID-19 investigators and contact tracers. They will monitor your symptoms and assist in determining the date you can be **released from isolation**.
 - If you are older or have any medical conditions (such as a compromised immune system, severe obesity, diabetes, or hypertension), consult with your regular healthcare provider.
 - If you need medical care, contact your healthcare provider or a local urgent care facility and inform them of your symptoms, COVID-19 test results, and travel history.
 - If you need **urgent** medical care (such as difficulty breathing or other severe symptoms), **call 9-1-1** and let the dispatcher know your symptoms, COVID-19 test results, and travel history.

Manage your quarantine

- Keep in touch with family and friends by phone, video calls, or other means.
- Where possible, keep up normal routines, such as eating and exercising.
- If you need help with COVID-19 isolation and quarantine or crisis support, contact **Hawaii CARES (24/7)**.
Call 1-800-753-6879 or text ALOHA to 741741.

Failure to follow this quarantine order is a misdemeanor and punishable by a maximum fine of \$5,000, or imprisonment of not more than one year, or both.

Mahalo for helping to keep Maui healthy and safe!
