REQUEST FOR SOLE SOURCE

(7/27/95)

To: Chief Procurement Officer, County of Maui Finance Department

From: WATER/WATER TREATMENT PLANTS (Department/Division Branch)

Re: Request for Sole Source Approval

Pursuant to 103-D306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following (Description of goods, services or construction): Project is to provide

dewatering filter bags and necessary equipment to drain and store the sludge from the sediment pond at the Piiholo WTF. Training is included.

Name of Vendor: Spinpro, Inc

Cost: \$ 65,444.23 Term of Contract: From NA To: NA

Prior Sole Source Reference No.(s) if any: None

1. The goods, services or construction has the following unique features, characteristics, or capabilities: The dewatering filter bags capture sediment in water so that the sediment is retained on site

instead of flowing across adjacent properties. The unfiltered water is black and looks like oil. The filter bags filter out the sediment and the released water is clear.

2. How are the unique features, characteristics or capabilities essential for the agency to accomplish its work?: The filter bags and a polymer treat and capture the sediment prior to the water being released

off-site. Previous discharges have created calls from the makai residents claiming that oil is being discharged from DWS property. This should prevent any discolored water from being discharged from the site.

(Attach additional sheet if necessary)

Sole Source Reference No. 21-38

3. The following other possible sources for the goods, services or construction were investigated but do not meet our needs because:

SPINPRO is the only supplier that provides all of the products (i.e. dewatering filter bags, pumps, polymer.) For this application, a single company that manufactures and supplies it's product will provide the best value and results for the Department. Please see EXHIBIT 1.
