Adam.Mundy@co.maui.hi.us

The Department of Water Supply is working diligently to repair damaged water lines in Kula. Multiple breaks, including approximately 80 feet of 12" waterline, are in difficult-to-reach locations. Terrain, power outages, mud and downed trees continue to hamper recovery efforts. The Department of Water Supply requests that all residents and visitors conserve water until a full assessment and repairs can be safely made and water service can be fully restored. While repairs are being made customers may experience low pressure to no water. Water tankers are currently located in the following areas:

- (1) Located at Fong Store
- (1) Ulupalakua Ranch Office
- (1) Kula Fire Station
- (1) Kula Community Center
- (1) Rice Park (above by bathrooms)
- (1) Silversword Condo (above Kula Lodge)

Upon restoration of water service residents and businesses may experience brown water and need to flush their water lines (allow the water to run until it is clear). We apologize for any inconvenience this may cause. For emergency repairs and updates please refer all calls to 270-7633.
