

# County of Maui Recycling Centers

County Recycling Centers are where residents and visitors bring sorted recyclables. Some Recycling centers also host HI-5 Redemption centers where you can redeem HI-5 bottles and cans. When the collection bins get full, they are hauled to our contracted Materials Recovery Facility in Kahului to be sorted and baled. They are then shipped to recycling facilities in Asia and the United States. To make this process cost effective, Maui County Recycling Centers accept only clean, high-value materials on the global market. It is very important to make sure you recycle only what is accepted; everything else needs to be sorted out by hand.

Go to [maucounty.gov/recycle](http://maucounty.gov/recycle) to find out where your recycling goes.
